

Staff Paper Maker v1.3.2 Manual

Ban.Tai Professional Score Generator

This English manual is included for users who switch the application display to English. The Japanese manual is also included in the package.

1. What This App Does

This app creates printable blank staff paper. You can choose paper size, orientation, staff type, clef, number of systems, line spacing, system spacing, and line thickness.

2. Paper Settings

- **Paper Size:** A4 or B5.
- **Orientation:** Portrait or Landscape.

3. Score Style

- **Staff Type:** Single staff or Grand Staff.
- **Page Layout:** First page with title line or subsequent pages.
- **Clef:** No clef, treble, bass, alto C clef, tenor C clef, or percussion clef.

4. Detailed Dimensions

Use Auto mode for quick layout. Use Manual mode when you want to adjust line spacing and system spacing yourself.

5. Save / Print

- **Save SVG Data:** Exports a vector SVG file.

- **Print / PDF Output:** Opens the standard print dialog. Use your printer or a PDF printer.

6. Language Switching

Click the **EN / 日本語** button in the upper right of the app header to switch between Japanese and English.

7. License

The trial period is 10 days. Trial output includes a SAMPLE watermark. After the trial period, a license key is required for saving and printing.

8. Support

For license purchases and support, contact: **hactionsa@gmail.com**
