

Installation Guide (English)

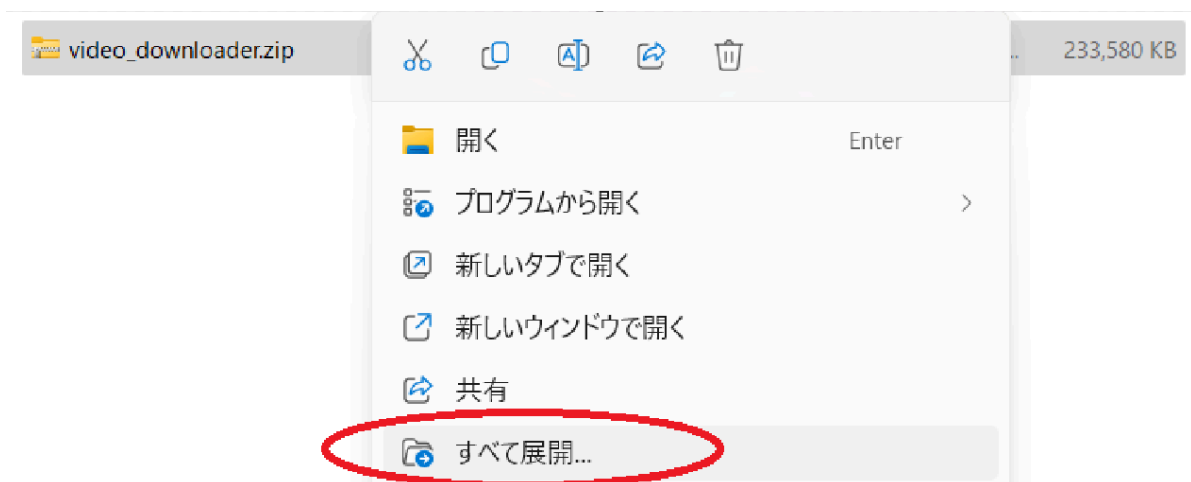

Overview: Video Downloader

- This software lets you easily download videos from a URL.
- For detailed usage, please see the "How to use" section.

Installation

- You can install it in the following 2 steps:

1. Unzip the downloaded ZIP file.

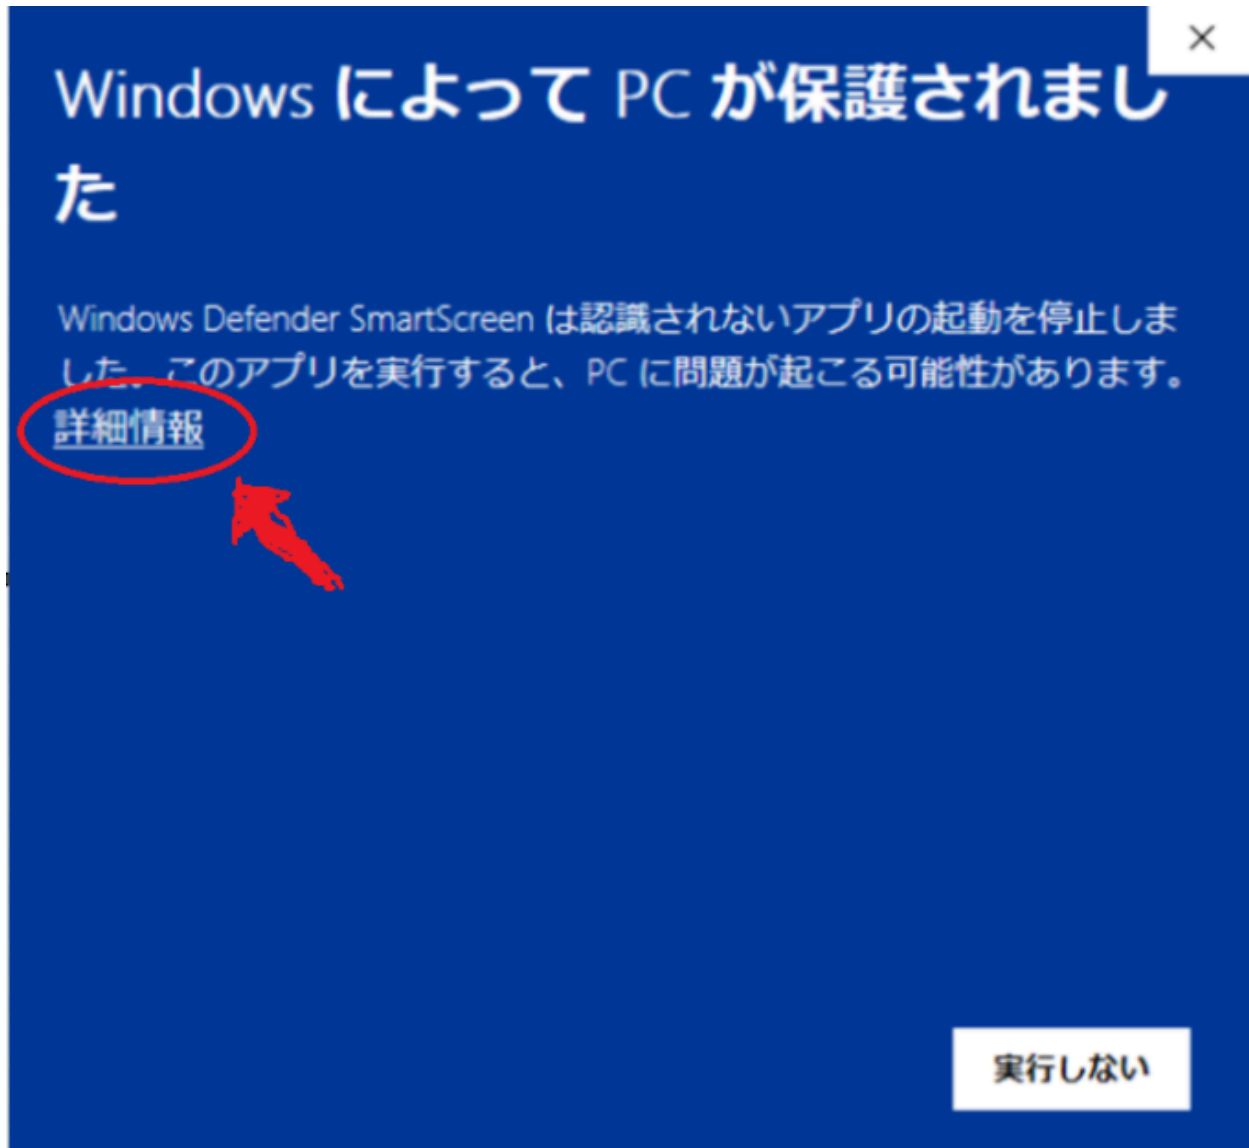

2. Run the installer (.exe).

In the extracted folder, you will find `VideoDownloader_0.1.0_x64-setup.exe`.

 VideoDownloader_0.1.0_x64-setup.exe	2026/08/17 2:12	アプリケーション	64,216 KB
---	-----------------	----------	-----------

- Click it to start the installation.
If you see a warning like the one below, click **More info** and then choose **Run**

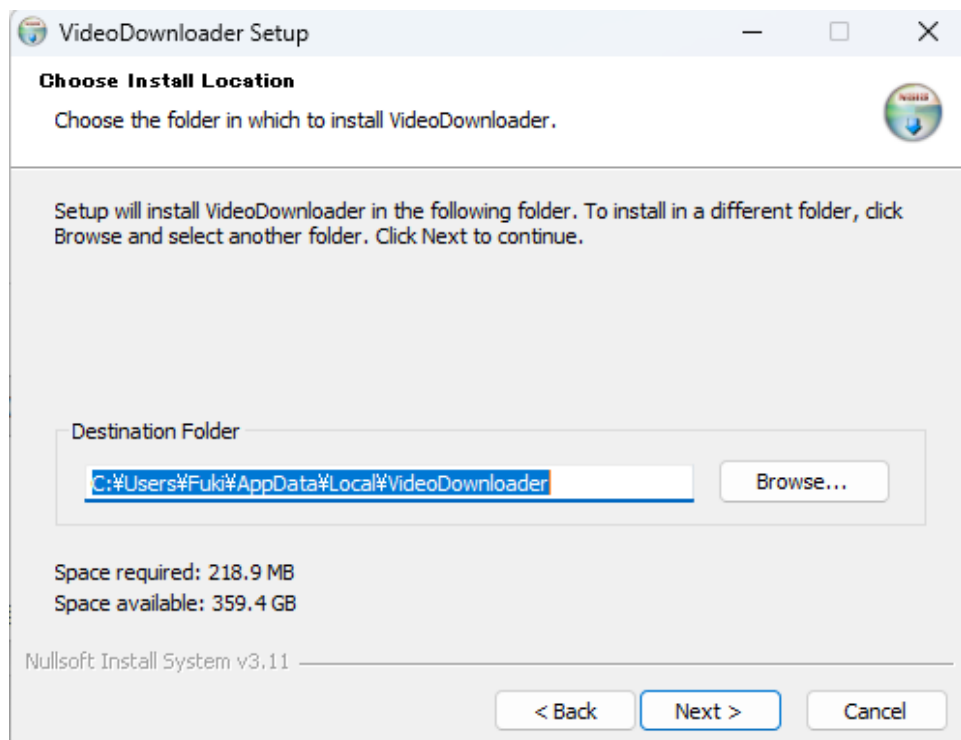

anyway.

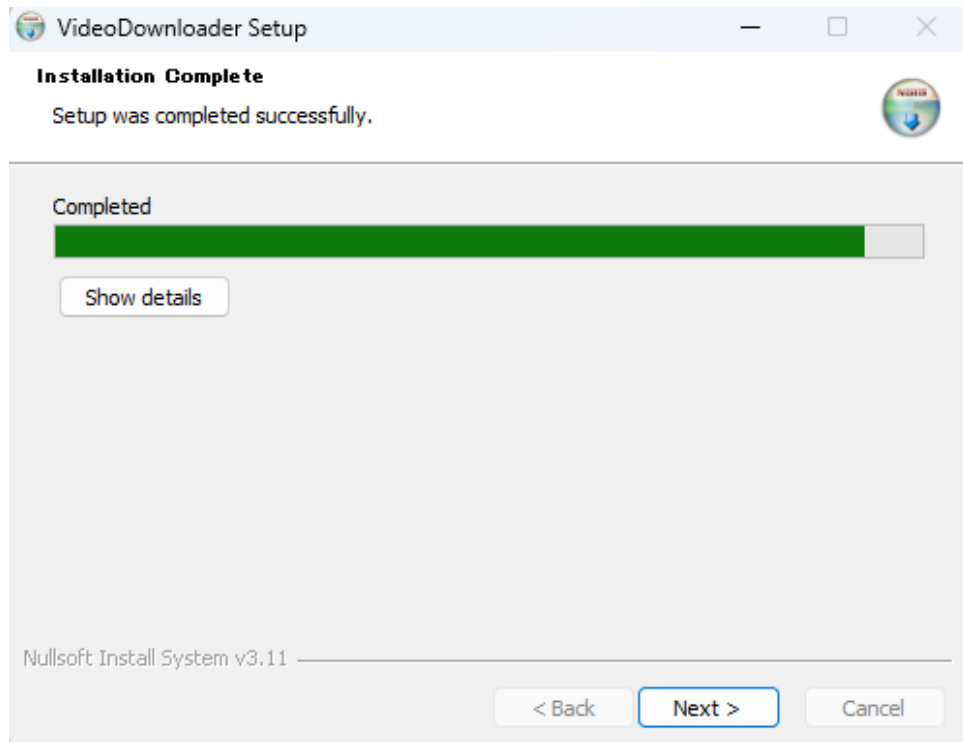

- The installer screen will appear. Click **Next** to proceed.

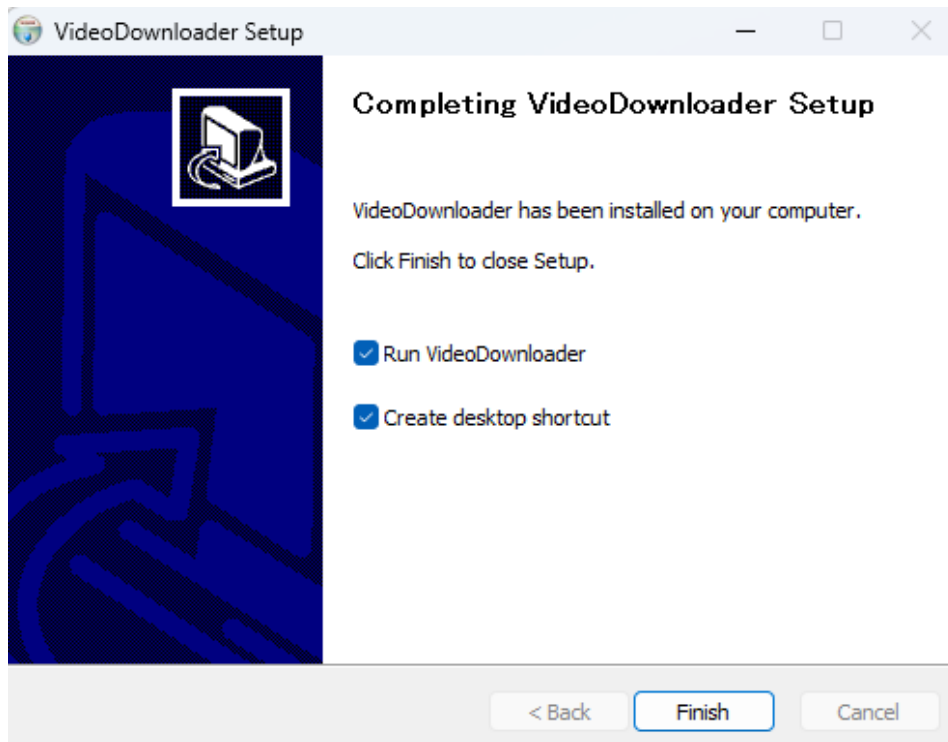

- You will be asked where to install it. Leave it as-is and click **Next**.

- Installation will begin. When it shows **Completed**, click **Next**.

- During installation, you may be prompted for administrator permission—click **OK** to continue.
- After completion, click **Finish** to launch the app.

- A desktop shortcut will be added—you can also start the app from there.

- That's it.

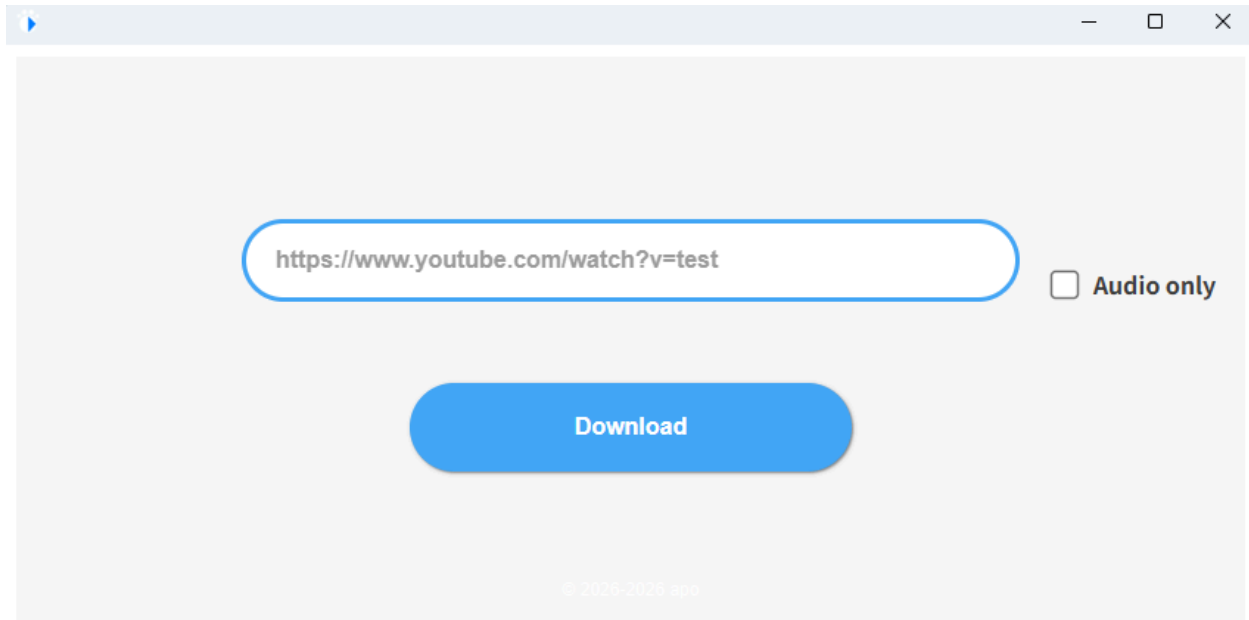

Uninstallation

- To uninstall, run `Uninstall.exe` located at:
C:\Users\<your-username>\AppData\Local\VideoDownloader

名前	更新日時	種類	サイズ
 ffmpeg.exe	2026/03/28 15:49	アプリケーション	197,221 KB
 uninstall.exe	2026/08/17 22:13	アプリケーション	78 KB
 VideoDownloader.exe	2026/08/17 2:11	アプリケーション	8,923 KB
 yt-dlp.exe	2026/03/29 11:05	アプリケーション	18,017 KB

How to use

- Copy the video URL and paste it into the URL box.
- Click the **Download** button.

Options

- If you check **Audio only**, you can download audio only.

Notes

- This software currently works on Windows only.
- The video format depends on the source platform, and the audio format is currently MP3 only. If you'd like other formats supported, please feel free to contact me.

Category

- Free software (free to use).

System requirements

- Verified on Windows 10 Home and Windows 11 only. (Mac support may be added in the future depending on demand.)
